The Convention of the Congregational Ministers in the Commonwealth of Massachusetts

Is a voluntary Association, embracing all the Congregational Clergy of the Commonwealth, but vested with no particular authority or control over the churches.

Their meeting is holden in Boston, in the afternoon of the last Wednesday in May, or day of Election annually, at 5. P.M. and the following day at eleven, A.M. After transacting the usual business of the Convention, a sermon is delivered in public before them, and a collection made for the charitable purpose of relieving the indigent Widows of Congregational Clergymen.

Difficulties having often arisen in determining, what widows are the proper objects of the charity of this Convention, it was voted, June 1, 1815, That a standing Committee be appointed, five of whom shall be chosen centrally; and the remainder in different parts of the State. The five, with the Scribe and Treasurer, shall act as a *Reporting Committee*, to receive from the other Members of the Committee applications and statements of facts in behalf of persons who may be subjects of the charity of the Convention; and having considered the same, shall judge of the persons to be relieved, and the proportion to be given to each, and make report to the Convention, on the first day of their meeting, annually; further, that the names of said Committee shall be annually published in the Massachusetts Register.

STANDING COMMITTEE.

Rev. John T. Kirkland, D. D. Rev. Eliphalet Porter,
D. D. Rev. Abiel Holmes, D. D. Rev. John Pierce, D. D.
Rev. Charles Lowell, D. D. Rev. John Codman, D. D.

Accordingly, when the widow of any Congregational Clergyman is considered an object of the charity of the Convention, it is desired that answers to the following questions be given by one of the Standing Committee, *by the first of May* in each year, to be communicated to the Reporting Committee, that they may possess the documents for making a correct report to the Convention

1. What is her age?
2. What are the number, the sex, the ages, and the circumstances of her children?
3. What is a fair estimate of her property?
4. What is her ability to help herself?
5. What connexions has she, who are bound to afford her assistance? And in what way do they assist her?
6. What is her income?
7. What peculiar circumstances render her an object of charity; or make it desirable, that she should have aid this year?

The Standing Committee are also desired to give notice to the Scribe, whenever an alteration takes place

in the circumstances of the widows, who are objects of charity.

Rev. Francis Parkman, of Boston, Treasurer.

Rev. John Codman, of Dorchester, Scribe of the Convention.

Rev. Dr. Pierce, first Preacher.

Rev. Dr. Packard, second Preacher.

The Convention earnestly recommend to all young gentlemen who design to devote themselves to the work of the ministry, to spend that portion of time in the study of divinity which learned and judicious advisers shall think necessary to qualify them for public teachers.

General Association in Massachusetts.

This body was organized in June, 1805. In 1814, it consisted of Delegates from 12 Associations in Massachusetts Proper. Its members "admit, as articles of faith, the doctrines of Christianity, as they are generally expressed in the Assembly's Shorter Catechism," and consider these doctrines, which have been generally embraced by the churches of New-England, as the "*basis of their union.*" This body wholly disclaims ecclesiastical power or authority over the Churches, or the opinions of individuals. The essential objects, as expressed in their Constitution, are "to promote brotherly intercourse and harmony, and their mutual animation, assistance, and usefulness as ministers of Christ."

✚ Annual meetings last Wednesday in June.

Massachusetts General Hospital Corporation.

Incorporated Feb. 25, 1811.*

Annual meeting of the Corporation, 3d Tuesday in Jan.

The corner stone of the Massachusetts General Hospital, was laid by a separate corporation, in 1818. It is justly considered the finest building in the state, stands at the westerly part of the city, on an enclosed ground of four acres, adjoining Charles River. This edifice is 168 feet in length, and 54 in its greatest breadth, having a portico of Eight Ionic columns in front. It is built of white Chelmsford granite, wrought with uncommon labour, the columns and their capitals being of the same material. In the centre of the two principal stories are the rooms appropriated to the Superintendent, the Apothecary, and other officers of the institution. Above these is the operating theatre, lighted from the dome, and fitted up with semicircular seats for spectators. Beneath is the kitchen with its various appendages, the bathing room, wash room, laundry, &c. The stair-cases and floorings of the entries are of stone. The whole house is supplied with heat by air-flues from furnaces in the cellar, and with water by pipes and a forcing pump. Various modern improvements in domestic economy, conducive to cleanliness and comfort, are introduced, together with such auxiliary apparatus for the sick as is found useful in the management of their diseases. The wings of the building, in the different stories, are divided into wards and sick rooms, which are fitted up in the neatest and best manner. The number of beds contained in them for patients is at present about a hundred. No insane patients are admitted to this building, these being provided for at the Lunatic Asylum at Charlestown, which is another branch of the same institution.

Visitors, The Governor, Lieut. Governor, President of the Senate, Speaker of the House of Representatives, with the Chaplain of both Houses for the time being.

* Any person who has given, or shall give, to the Institution, or to either department thereof, one hundred dollars and upwards, or any property of that value, shall be a member of the Corporation; and each member is entitled to one vote.

Medical School in Boston.

The Massachusetts Medical College, an edifice belonging to Harvard University, was erected in Boston in 1815; and it is situated in Mason Street, near the Boston Common and Mall. This building is of brick, 88 feet in length, and 43 in breadth. Its figure is oblong, with a pediment in front, and an octagonal centre rising above the roof, and also forming a three-sided projection in the rear of the building. This is surmounted by a dome with a sky-light and balustrade, giving an air of elegance to the neatness and fit proportions of the building.

The apartments on the first floor are, a spacious medical lecture room, of a square form, with ascending semicircular seats; a chemical lecture room in the centre, of an octagonal form, with ascending seats; a chemical laboratory; and a library room. In the second story is the anatomical theatre, occupying the central part of the building, and covered with the dome and sky-light, with semicircular seats, which are entered from above and descend toward the centre. A large and small dissecting room, together with another for the anatomical museum, occupy the extremities of the same story.

In this building are contained the cabinet of anatomical preparations, consisting of more than a thousand valuable specimens; the chemical apparatus, which is complete and costly; the apparatus and specimens used in the lectures on midwifery and materia medica; and the medical library, containing above 3000 volumes.

The *Medical Lectures* of Harvard University begin in this building annually, on the 3d Wednes. in Novemb.
